

# Rome was not built in a day- never afraid of dreaming big

The quote "Rome was not built in a day" reminds me of artists. I love drawing and I am amazed by how long it took for a painter to create a masterpiece. For example, it took 4 years for Michelangelo to complete the ceiling of the Sistine Chapel. When I knew I need to hand in an artwork regarding to this SOW, I planned to make a doodle drawing. I could only draw a bit on the first day and it seemed hard to complete. However, great work came out after ten days of persistence. This experience reinforced my believe of hard work pays off, never afraid of dreaming big, we just need to move ahead with positive mindset.
