

Animal puppets

Materials/Tools Needed:

- Two sticks made of eco-friendly wood
- Cloth
- Glue
- Buttons
- Scissors
- Coloured markers

Steps:

First, draw the outline of the animal you want for your puppet.

Next, cut out two identical shapes.

Then, glue the edges of the two shapes together, leaving the bottom open.

After that, attach the buttons for the eyes, draw a nose and mouth, and decorate with coloured markers.

Finally, add the two wooden sticks to the bottom, and it's done.
